How Agents Earn Money:

Agent-Consultants *earn money and increase the value* of their business by

- 1) either using the *MyCareer-Maker* tools by themselves in their recruitment work, or
- 2) convincing their company clients to use the *MyCareer-Maker.com* Recruitment and Job Matching System.

In both cases our Agent-Consultants earn money. The basis of earning are the sales/purchases of tested and matched Applicants' job applications.

*If our Agent-Consultants have convinced their corporate clients to use the *MyCareer-Maker* system, the Agent-Consultant receives commissions on every application their registered corporate clients purchase.*

*If the Agent-Consultant uses the *MyCareer-Makersy* system on behalf of their clients, the Agent-Consultant is the purchaser on behalf of the clients and therefore receives on every purchase the same commission as she/he would get if the purchaser/payee would be their corporate clients.*
